SUSTAINABILITY POLICY

INTRODUCTION

Geopure LLP aspires to minimise its impact on our environment and maximise the effective use of resources. We strive to achieve this by increasing communication and awareness of our efforts in accordance with this policy and fostering responsible environmental behaviour amongst staff, and users at all levels.

Geopure LLP is committed to minimise risks and impacts through the development of robust and documented systems to implement and monitor environmental performance both within its operations and whilst carrying out work on behalf of our customers.

PURPOSE

This Sustainability Policy aims to integrate a philosophy of sustainable development into all the organisation's activities and to establish and promote sound environmental practice in our operations.

POLICY

Geopure LLP commits itself to minimising its impact on our environment through

- 💧 Providing a safe and healthy workplace;
- 💧 Sourcing local services;
- 💧 Sourcing products and consumables from local businesses
- 💧 Having an environmentally sustainable aware culture, where responsibility is assigned and understood;
- 💧 Being an environmentally responsible business in our community;
- 💧 Conserving natural resources by reusing and recycling when possible;
- 💧 Using, in our own operations, processes that do not adversely affect the environment;
- 💧 Ensuring the responsible use of energy throughout the business;
- 💧 Participating in efforts to improve environmental protection and understanding;
- 💧 Taking steps to improve environmental performance continually;
- 💧 Conducting evaluations, and self-assessments of the implementation of this policy;
- 💧 Working with suppliers who promote sound environmental practices.
